README.md

- ❖ README.md는 GitHub 저장소에 대한 기본 설명으로 보여지는 파일입니다.
- ❖ GitHub에서 **.md 파일**은 markdown 문법에 따라 화면에 표현되게 됩니다.

The screenshot displays the GitHub interface for a repository named 'firstgittest1 / firstgit'. The repository has 2 branches and 0 tags. The 'Code' tab is selected, showing a list of files: README.md, testfile.txt, and testfile2.txt. The README.md file is open, showing its content in a markdown format. The content includes a title 'firstgit', a subtitle '처음 만들어보는 git 저장소입니다.', a heading 'H1 연습', and a section '짧은 글씨 연습 리스트 연습' with a bulleted list of items.

◆ Markdown이란?

- ❖ **마크다운(markdown)**은 일반 텍스트 기반의 경량 마크업 언어다. 일반 텍스트로 서식이 있는 문서를 작성하는 데 사용되며, 일반 마크업 언어에 비해 문법이 쉽고 간단한 것이 특징이다.
- ❖ HTML과 리치 텍스트(RTF) 등 서식 문서로 쉽게 변환되기 때문에 응용 소프트웨어와 함께 배포되는 README 파일이나 온라인 게시물 등에 많이 사용된다.

자료 출처 :

<https://ko.wikipedia.org/wiki/%EB%A7%88%ED%81%AC%EB%8B%A4%EC%9A%B4>

◆ Markdown 문법

- ❖ Markdown cheatsheet : <https://github.com/adam-p/markdown-here/wiki/Markdown-Cheatsheet>
 - ❖ Markdown Preview : <https://markdownlivepreview.com/>
1. #, ##, ### 등으로 글자 크기를 조정할 수 있습니다.
 2. 들여쓰기와 - 으로 리스트를 만들 수 있습니다.
 3. **~**로 굵은 글씨를 만들 수 있습니다.

◆ README.md 파일 생성 및 Markdown 실습

❖ README.md 파일을 직접 생성하고 Markdown을 실습해봅시다.

Issue

- ❖ GitHub Repository의 Issue 탭에 Issue를 생성할 수 있습니다.
- ❖ Issue 생성을 통해 버그를 제보하거나 다른 작업자들과 공유할 내용들을 Open 할수 있습니다.
- ❖ 또한 각 Issue 별로 tag를 설정할 수 있습니다.
- ❖ 관리자는 Issue를 확인하고 Issue를 Close 상태로 변경할 수 있습니다.

The screenshot shows the GitHub interface for the tensorflow/tensorflow repository. At the top, there are navigation links for Code, Issues (3.8k), Pull requests (203), Actions, Projects (1), Security (35), and Insights. A search bar contains the text "is:issue is:open". To the right of the search bar are filters for Labels (94) and Milestones (9), and a "New issue" button. Below the search bar, there is a summary of issues: 3,828 Open and 26,953 Closed. A list of issues is displayed, including:

- How to Build TensorFlowLiteGPUExperimental for iOS x86 + others** (type: build/install) - #47978 opened 1 hour ago by airman00
- Will Lambda.compute_output_shape change "inbound_nodes" of Lambda layer?** (type: bug) - #47977 opened 3 hours ago by mjdxyr
- WARNING: AutoGraph could not transform <function Model.make_predict_function. <locals>.predict_function at 0x000002051844F0D0> and will run it as-is. Please report this to the TensorFlow team. When filing the bug, set the verbosity to 10 (on Linux, export AUTOGRAPH_VERBOSITY=10) and attach the full output. Cause: 'arguments' object has no attribute 'posonlyargs' To silence this warning, decorate the function with @tf.autograph.experimental.do_not_convert** (stat: awaiting response, type: support) - #47976 opened 3 hours ago by mjdxyr

◆ Issue 처리 프로세스

🔺 GitHub Wiki – 저장소에 대한 설명

- ❖ 위키(wiki)는 불특정 다수가 협업을 통해 직접 내용과 구조를 수정할 수 있는 웹사이트를 일컫습니다.
- ❖ GitHub의 Wiki를 통해 프로젝트 대한 설명을 작성할 수 있습니다.

The screenshot displays the GitHub Wiki interface for the vuejs/vue repository. At the top, the repository name 'vuejs / vue' is shown alongside interaction buttons: Sponsor, Watch (6.3k), Star (181k), Fork (28.5k), and Insights. Below this is a navigation bar with links to Code, Issues (346), Pull requests (216), Actions, Projects (4), Wiki (selected), Security, and Insights. The main content area is titled 'Governance Document' and notes that 'jschatz1 edited this page on 1 Apr 2019 · 8 revisions'. Under the 'Overview' section, a paragraph describes the project's governance structure. To the right, a 'Pages' sidebar lists 'Governance Document' and 'Code of Conduct'. At the bottom right, there is a 'Clone this wiki locally' section with the URL 'https://github.com/vuejs/vue.v' and a download icon. The 'Roles and Responsibilities' section begins with 'Project Lead', identifying Evan You (@yyx990803) as the founder and project lead of Vue.js.

Overview

This project is led by a project lead and managed by the community. That is, the community actively contributes to the day-to-day maintenance of the project, but the general strategic line is drawn by the project lead. In case of disagreement, they have the last word. It is the project lead's job to resolve disputes within the community and to ensure that the project is able to progress in a coordinated way. In turn, it is the community's job to guide the decisions of the project lead through active engagement and contribution.

Roles and Responsibilities

Project Lead

Evan You (@yyx990803), the founder of the project, serves as the project lead of Vue.js.

GitHub Star

❖ 마음에 드는 저장소에 Star를 눌러서 관심 저장소로 설정할 수 있습니다.

The screenshot displays the GitHub repository page for tensorflow/tensorflow. At the top, the repository name is shown with icons for Watch (8.2k), Unstar (154,290), and Fork (84.3k). Below this is a navigation bar with links to Code, Issues (3.8k), Pull requests (194), Actions, Projects (1), Security (35), and Insights. The main content area shows the repository structure with a table of files and folders, including .github, tensorflow, third_party, tools, and .bazelrc. Each entry shows the commit message and the time since the last update. On the right side, there is an 'About' section with the text 'An Open Source Machine Learning Framework for Everyone' and a link to tensorflow.org. Below this, there are tags for various technologies: python, machine-learning, deep-neural-networks, deep-learning, neural-network, tensorflow, ml, and distributed.

The screenshot shows the GitHub profile of François Chollet (fchollet). The profile includes a circular avatar of a green alien-like character, the name "François Chollet", and the username "fchollet". Below the name, it shows "12.2k followers · 0 following · 120 stars" and the email "francois.chollet@gmail.com". The navigation tabs at the top are "Overview", "Repositories" (with a badge for 11), "Projects", and "Packages". The "Pinned" section features the repository "keras-team/keras" with the description "Deep Learning for humans", a Python badge, 50.9k stars, and 18.7k forks. The "886 contributions in the last year" section displays a heatmap of contributions from June 2020 to March 2021. The heatmap shows a high density of contributions in the first half of 2021, with a significant drop in activity during the first half of 2020. A legend at the bottom of the heatmap indicates the color scale for contribution counts, ranging from "Less" (light green) to "More" (dark green). A sidebar on the right shows the years 2020, 2019, 2018, and 2017, with 2021 selected.

🔺 GitHub commit 내역 확인하기

❖ commits 버튼을 누르면 어떤 유저가 언제 어떤 내역을 수정했는지 한눈에 볼 수 있습니다.

The screenshot shows the GitHub interface for the repository 'firstgittest1 / firstgit'. The 'Code' tab is selected. At the top, there are navigation links: '<> Code', '! Issues 1', 'Pull requests', 'Actions', 'Projects', 'Wiki', and 'Security'. Below these, there are buttons for 'Go to file', 'Add file', and a green 'Code' button with a download icon. The commit history is displayed as a table with the following data:

Commit Hash	Commit Message	Time Ago
86768e2	firstgittest1 test file add and amend contents add	4 days ago
	README.md conflict solve	5 days ago
	developer2_file.txt developer2_file.txt 파일추가	6 days ago
	testfile.txt test file add and amend contents add	4 days ago
	testfile2.txt testfile2.txt 추가	6 days ago

◆ GitHub Milestones로 프로젝트 관리하기

- ❖ GitHub Milestones에서 새로운 Milestone을 생성합니다.
- ❖ Milestone에 특정 일자까지 진행할 목표를 설정할 수 있습니다.
- ❖ 또한 Issue를 생성할 때 Issue별로 Milestone을 할당할 수 있습니다.

The screenshot shows the GitHub interface for a repository named 'firstgittest1 / firstgit'. At the top, there are buttons for 'Unwatch', 'Star', and 'Fork'. Below this is a navigation bar with links for 'Code', 'Issues' (which is active and has a count of 1), 'Pull requests', 'Actions', 'Projects', 'Wiki', 'Security', and 'Insights'. Under the 'Issues' tab, there are buttons for 'Labels' and 'Milestones', and a green 'New milestone' button. The main content area shows a single milestone titled '카xx톡 회원가입 기능 추가'. It has a progress bar at 50% complete, with 1 open issue and 1 closed issue. The due date is 'Due by March 31, 2021' and it was 'Last updated 8 minutes ago'. The description of the milestone is '카xx톡 회원가입 기능을 추가합니다.'.
